

## 9. Mental Health

If you suffer from psychopathological distress or psychic discomfort (for example, if you suffer from anxiety, depression or eating disorders), you can avail yourself of local mental health services.

**A. What are Adult Mental Health Services?** Adult Mental Health Services are situated and divided in Simple Functional Units “Unità Funzionali Semplici” (U.F.S.) – Florence has 4 U.F.S. (“Quartiere 1-3”, “Quartiere 2”, “Quartiere 4” and “Quartiere 5”). They offer care to people aged at least 18 years who suffer from psychic disorders. Based on the category, the seriousness and the urgency of clinical pictures, patients can be treated in Mental Health Centres (“Centro di Salute Mentale”), in rehabilitation facilities (“Strutture Riabilitative Psichiatriche”) or in hospitals (“Servizi Psichiatrici di Diagnosi e Cura”). Mental health services have multi professional teams of doctors, psychologists, nurses, educators and social workers. Together with patients and their families, the staff offers a therapeutic and rehabilitative programme, guaranteeing integrated and customized care.

### **B. Addresses of Adult Mental Health Centres in Florence**

For the first psychiatric consultation, you need a medical prescription. The first time, you can call the Mental Health Centre or you can come in person in the opening hours. Then, you will schedule an orientation meeting with the nurses. On that occasion, you will schedule the specialized consultation. First psychological consultation: medical prescription, appointment fixed via phone call and/or in person.
